

**Hello. Jesus here. I should begin with a disclaimer that I am in cartoon form. I'm not saying the artist did a bad job drawing me, just that it's not an exact thing. Also, in these sessions, she's going to do her best to represent me, as she understands me from scripture. So cut her some slack; she's trying. Her answers will be in the first person.**

#### **Session 4: CORONA and other things that scare me....**

I appreciate your inviting me to speak with you today. There are a lot of questions people have, a lot of feelings people have.

In this session, we will discuss the topic: **CORONA and other things that scare me.**

A friend told me the other day:

I am afraid, like all the time. I watch the news and see all the bad stuff happening everywhere.

And now there's Corona.

Some people feel like nothing will ever be okay again. It's scary.

Another friend told me:

I don't want to die, but it's like I'm just waiting to die, like it's coming, and I can't stop it. I've lost hope.

The world is a mess. You're right about that. And sometimes people we love get sick and die. But we don't have to be afraid.

How can I say that we might die and we don't have to be afraid?

In John 16:33, I told my followers:

I've said these things to you, so that in Me, you could have peace.  
In the world you will have tribulation, but cheer up, I've overcome the world.

I'm talking about peace, no matter what's going on with the world.

The first thing you have to recognize is that the Christ has authority over everything. Matthew 28:18 says that the Father gave all authority to me. So I'm at the top, like in the military. Everything and everyone else, is under My command. So, sickness and death have no authority over you, because you know Someone who outranks them. It's like the employee at the fast food restaurant who says you can't order extra cheese. Yeah, well, maybe, but you know the Manager. Not trying to be a Karen, but we'll see what the Manager says about that.

But people do die. If not from Corona, they die from cancer or car wrecks or a million other ways.

It's true. People do, for a lot of reasons.

Some people don't believe in God, so they ask doctors to heal them, forget all about asking Him.

Sometimes people ask for healing, but they are still making lifestyle choices that make them sick.

Sometimes people hold onto anger, unforgiveness, bitterness, which is poison to their bodies.

Sometimes people have done nothing wrong, but they die. That's so hard to understand.

It is important to remember that our bodies weren't created to last forever, that this sinful world takes its toll on us. God can heal us over and over here, or He can take us to Heaven, where we'll never be sick again.

This world feels like it's everything, but it's like a tiny blip in the span of time.

It's like someday, you'll wake up into eternity and this life will just be a dream, in some cases, a bad dream.

It's also important to recognize that you don't have to face any of this life alone. One of the names used to describe me in scripture is Emmanuel, which means "God with us." So, if you walk with Me through life here, one day, you'll walk into eternity with Me. You don't have to be afraid, if you remember, I've got you.
